### III. The reporting

The scope of the audit shall be stated in the report and the methodology used shall be presented.

The reporting shall be signed by the responsible auditor (not just the audit firm) and title.

The reporting from the auditor shall include an independent auditor’s report in accordance with the format in standard ISA 800/805 and the auditor’s opinion shall be clearly stated, as well as a Management letter with audit findings and weaknesses identified during the audit process. The auditor shall regardless of materiality, quantify the amount for costs lacking sufficient supporting documentation. The auditor shall make recommendations to address the weaknesses identified and the recommendations shall be presented in priority order. Measures taken by the organisation to address weaknesses identified in previous audits shall also be presented in the Management Letter.

The additional assignment according to agreed upon procedures ISRS 4400 under paragraph III, shall be reported separately in a “Report of factual findings”.

If the auditor conducts an additional assignment according to ISRS 4400 and assesses that the observations presented in the “Report of factual findings”, include the information that would have been included in a Management Letter, a Management Letter does not need to be developed. In such a case, the “Report of factual findings” shall include an explanation of why a Management Letter has not been developed.
